## EDUCATION

**Indiana University**, Bloomington, IN                                                                Expected April 2014
*PhD Candidate, ABD, major in German Linguistics; minor in Second Language Studies*      GPA: 3.94 / 4.0
- Specialization in phonological data analysis using modern theoretical frameworks
- Dissertation in German phonology focuses on creating a model to predict liquid vocalizations
- Analyzed and edited digital recordings for a phonetics-oriented second language research project
- Published papers in peer-reviewed linguistics journals on topics including phonology, pragmatics/discourse analysis, historical phonology, and second language acquisition

**Christian-Albrechts-Universität zu Kiel**, Kiel, Germany                               August 2007 – July 2008
*Graduate Exchange Fellowship recipient*
- Conducted interviews and analyzed data for an independent phonological project
- Published findings in the *Journal of Germanic Linguistics*

**Indiana University**, Bloomington, IN                                                                              June 2007
*M.A. with honors in Germanic Studies with a focus on linguistics*                            GPA: 3.90 / 4.0
- Investigated the significance of formal/informal pronoun selection in Old Icelandic for M.A. thesis
- Published thesis in the *European Journal of Scandinavian Studies*

**The University of Kansas**, Lawrence, KS                                                                        May 2004
*B.A. in German and Psychology*                                                                            GPA: 3.80 / 4.0

## PROFESSIONAL EXPERIENCE

**Speexx**, Munich, Germany                                                                            January 2012-Present
*Language Instructor & Client Liaison*
- Conducted personalized client meetings in German based on individual learner needs and goals
- Coordinated and taught language courses for clients from multi-national companies
- Ensured client satisfaction with the functionality of language learning software
- Administered oral placement tests and evaluated results based on European (CEFR) standards

**Indiana University**, Bloomington, Indiana                                                September 2009-May 2011
*Research Associate - Second Language Studies*
- Developed experimental method for data collection in laboratory phonology
- Collaborated with other research linguists on a system for screening applicants
- Recruited and tested subjects for lexical decision and ABX decision making tasks
- Analyzed and annotated phonetic data using Praat (software for phonetic analysis) resulting in a new model to capture the acquisition of second language sounds

**Indiana University**, Bloomington, Indiana                                             September 2006 – May 2011
*Associate Instructor - Department of Germanic Studies*
- Managed a team of international instructors for first through fourth semester German courses
- Trained instructors on approaches to teaching methods and lesson planning
- Provided periodic feedback based on observational evaluations of teaching effectiveness
- Instructed beginning through intermediate undergraduate and graduate students
- Advised students on their progress and formulated strategies tailored to their goals

## ADDITIONAL

- Technical skills: Python, Praat, HTML/CSS, MS Office, regular expressions, NLTK
- PhD coursework in research methods, syntax, morphology, laboratory phonology, and semantics
- Languages: English (native); German (fluent); Old Germanic languages (reading); Estonian (basic)
- Interests: Homebrewing beer, solving puzzles with Python
